

## Crest at Wailuna Driveway and Sidewalk Paint Policy

(Revised May 2024)

The Architectural Control Committee, (ACC), has adopted two approved paint colors for homeowners desiring to paint their driveway and garage sidewalks. Please do not paint driveway curbing or front yard curbs.

For safety reasons, the ACC recommends adding a gripping or nonstick agent to the paint. This will aid in the prevention of slips, trips and falls.

Before initiating painting, as with all painting requests, homeowners are to submit to the ACC Paint request form and specify their choice of color gray paint for approval.

1. From the **EUCLID** Universal Color Chart, the color **TIMBER WOLF GRAY**.  
\*\*Caution-other paint companies may have a color called TIMBER WOLF GRAY, however that color may not match the EUCLID Timber Wolf Gray color.

Photo of Timberwolf painted on concrete.

2. BENJAMIN MOORE Floor & Patio Low Sheen **DECK GRAY N 122 71**.  
(Sold at City Mill)

These 2 paint colors are provided as sample colors for exterior painting on garage sidewalks or driveways. The similarity to a concrete color will help camouflage accumulated dirt, vehicle oil stains and mildew. It is not an endorsement of a particular product.
