

CREST AT WAILUNA

NOTICE: Satin Leaf Tree Stump Grinding

Aloha Crest at Wailuna Owners:

The Association's landscaper will begin stump grinding work within the next two weeks, including weekends. Work hours will be from **8:00 AM to 3:30 PM**, weather permitting.

This project involves **grinding Satin Leaf tree stumps to a lower level**. Compost will be placed over the area to promote natural decay and encourage grass regrowth. Please note, this is not a full stump removal project.

What You Need to Do:

- Remove any personal items from the front yard areas where stump work will occur. Items left nearby are at your own risk.
- Debris will be cleared by the contractor after grinding is completed.

Scheduled Work Locations:

- **98-1851 to 98-1871B** (Units #1–13)
- **98-1871D to 98-1921B** (Units #15–28)
- **98-1921D to 98-1971E** (Units #30–46)
- **98-1971H to 98-1971G** (Units #48–50)

Exceptions:

Some stumps may not be ground if they are too close to structures such as concrete slabs, driveways, or sidewalks. These will be addressed later using alternative methods. For reference, two stumps cut in 2019 naturally decayed over time, and grass has since grown over them.

This notice is also posted on the Association website: www.crestatwailuna.com.

We appreciate your cooperation and understanding as we continue to improve our community. For questions, please contact our Community Portfolio Manager Kanai Kaopua at 808-539-9501 or email kananik@hawaiianprop.com.

Mahalo,
